

# INTERNATIONAL TOURISM SNAPSHOT

as at 30 September 2016

Total international arrivals to Australia

Total international visitor spend

# International Tourism Snapshot as at 30 September 2016

International arrivals and spending are both at record levels. We welcomed 8.1 million international visitors as at year ending September 2016. These visitors injected \$38.8 billion into the Australian economy. Total international aviation capacity to Australia grew by 9 per cent.

## Total international arrivals to Australia

## Total international visitor spend

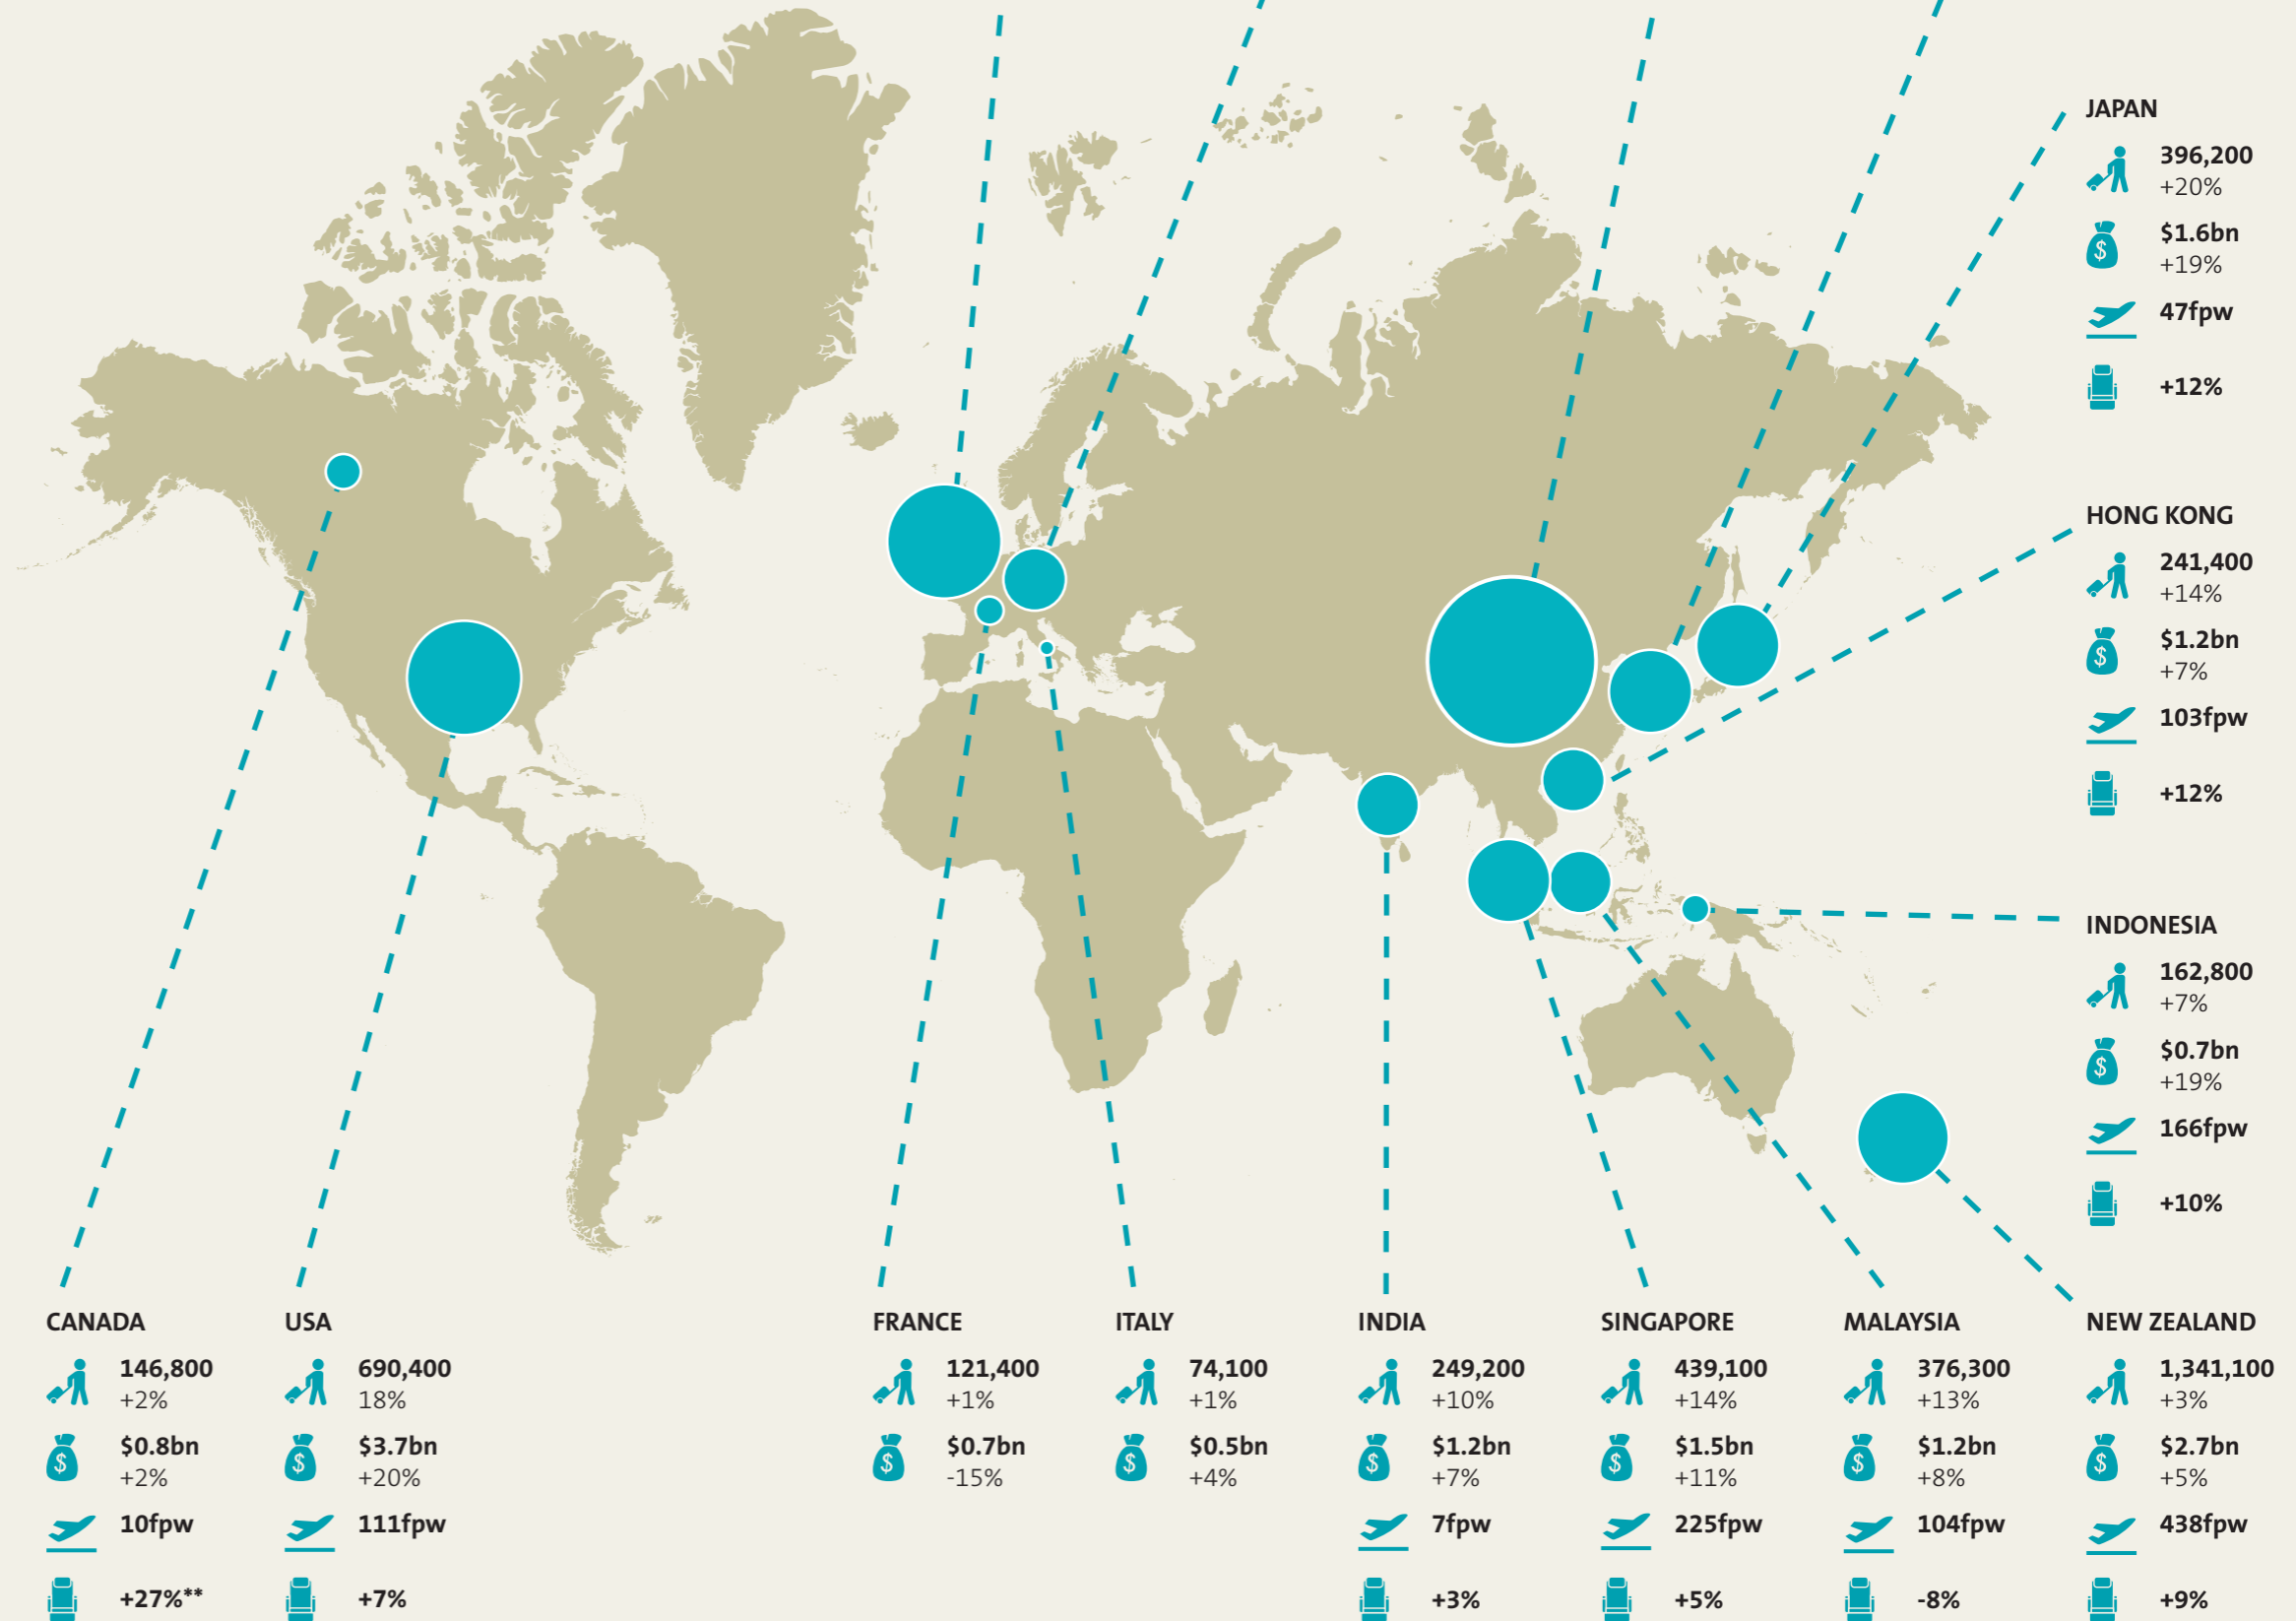

## Total international aviation capacity\* (inbound seats)

Size of circle represents relative size of visitor spend in Australia as at YE September 2016

Visitor arrivals  
 Visitor spend  
 Flights per week (fpw)  
 Inbound seats

Notes: Percentage figures are year on year change. bn = billion. fpw = flights per week (inbound).  
\* Aviation data are for international scheduled direct flights to Australia with "same flight number" originating from respective source markets. \*\* Year on year change of number of seats.
