

GREAT FISHING ADVENTURES OF AUSTRALIA

Great Fishing Adventures of Australia is a group of leading independently owned fishing tourism operators who have come together to collectively raise the profile of Australia as a world class fishing destination. No matter what the season, Australia offers international enthusiasts the opportunity to indulge in their passion and experience some of the very best fishing, amongst some of the most naturally spectacular and diverse environments, the world has to offer. Great Fishing Adventures of Australia endorses sustainable fishing practices.

There's nothing like fishing in Australia. Any way you look at it, Australia is an angler's paradise. A massive island with a sparse population, our coastline stretches nearly 60,000 kilometres and is lapped by warm, clean, lightly-fished seas. Not surprisingly, the richness and diversity of Australia's fish life is nothing short of mind-boggling, with nearly 4,000 marine species (we're still counting!)... and many of these fish are found nowhere else on earth.

Included in our catalogue of fishing riches are such glittering prizes as high-flying, chrome-silver barramundi, massive Murray cod with mouths the size of buckets, the world's greatest seasonal concentration of huge Black Marlin, record-breaking giant trevally, succulent snapper, lip-smacking whiting and some of the finest trout fishing to be found anywhere south of the equator... and that's just for starters! Abundance, variety and diversity are the core characteristics of Australian fishing. Casting a line here is a giant lucky dip, and some of our tropical destinations have been known to yield well in excess of 50 species per angler in less than a week of fishing. Not that you need to travel to the more remote and far flung

corners of our island continent to experience fishing bliss: there are a multitude of wonderful day-trip opportunities right on the doorsteps of our major cities. These allow you to mix the cosmopolitan pleasures of fine dining, world-class entertainment and cultural immersion with bent rods and screaming reels... truly the best of all worlds! Of course, there's so much more to building lasting fishing memories than simply catching fish... even big ones! In the end, it's as much about context and experience, and you'll find those ingredients here in healthy servings.

Eye-popping scenery, exotic wildlife and colourful, down-to-earth local characters are all integral parts of the bigger picture. Better yet, because we're situated Down Under, in the southern hemisphere, our seasons are reversed! While China, North America and Europe are seized in winter's icy grip, we're enjoying long, languorous days bathed in glorious summer sunshine... so come on down and wet a line! The water's fine, the fish are biting and the locals are definitely friendly.
